Objective

2014 Design, build and ship awesome web products with great clients using Lean & Agile

Experience

Since 2014 **Full-Stack Web Engineer, Freelance**, Paris, France.

Helping startups build their first MVP, making future-proof technology choices, assuming a *CTO by Interim* role. Lean Startup, Agile and TDD at the heart of my methodology. [Ruby](#) (Rails)

2012-2014 **Senior Software Engineer, Applidget**, Paris, France.

Full-stack lead developer on MobiCheckin, a SaaS product for event organisers. Integration of Mandrill, Mailchimp, Highrise, Esendex and Xing Events APIs. [Ruby](#) (Rails), [JavaScript](#)

2010-2013 **Web Software Engineer, Auto-Entrepreneur**, Remotely, Earth.

- Bootstrapping a SaaS product for e-merchants, **Shopboard**, a real-time dashboard with live chat integration. [Ruby](#), [JavaScript](#)
- Designed, implemented and tested a web CMS for Sogedis, an household appliances spare part company. Hooked it with the ERP Divalto and e-commerce website. [C#](#)
- Usability testing and funnel optimization on pieces-detachees.sogedis.fr to help growing the e-commerce revenue to more than 250k€ per month.

2009-2012 **Software Engineer, VirtuOz (Acquired by Nuance)**, Paris, France.

- Designed, implemented and tested the flagship product *Voice of the Customer* in collaboration with the big data scientists. [C#](#), [JavaScript](#)
- Implemented best practices with a code review process and solid continuous integration.

2008-2009 **Software Engineer Intern, Google**, Zürich, Switzerland.

Built web dashboards to visualize the internal network structure and status. [Python](#), [C++](#)

2007-2008 **Web Developer, Sogedis**, Rouen, France.

Designed and implemented from scratch the Sogedis e-commerce. [PHP](#)

2007 **Software Engineer Intern, VirtuOz**, Paris, France.

Research Internship in natural language processing. [C#](#)

2004-2005 **French Army Officer, Brigade des Sapeurs Pompiers de Paris**, Paris, France.

Education

2004-2009 **Master of Science, École Polytechnique**, Paris, *Computer Science*.

Military and Scientific training with 1 year specialization in Network at *Telecom ParisTech*.

2002-2004 **Classes Préparatoires, Corneille High School**, Rouen, *PC**.

2 years of intensive training in Math, Physics and Chemistry.

Skills

Technical Software design, implementation, and testing of web applications.
Strong experience with [Ruby](#) (Rails), [C#](#) (ASP.Net MVC), [Java](#), [PHP](#), [JavaScript](#) (vanilla, jQuery, Node.js), HTML, CSS, REST, [zsh](#) and git.
Best practices (code review, continuous integration & deployment, project management).

Languages French (*mother tongue*), English (*full professional proficiency*), Spanish (*notions*)

Hobbies

Music Piano and bass guitar player

Sports Bodyboard, Volley Ball

Cooking You must taste my *canelés* and *risotti* ! - or my muffins and cookies :)
